ISHIBASHI YOSHIKAZU

Outline	This subject is "Cooperative Education through Research Internships (hereinafter referred to as research internships)". This is a long-term, paid, job-based internship program carried out by companies and universities in collaboration. Credits are approved by completing the following steps; 1. Students need to register with the matching system operated by the Coop-J consortium. 2. Students need to apply for a job description offered by a company on the system. 3. Students need to be accepted by a company. 4. Students need to participate in the internship.
Learning objectives	Students can have deeper understanding of how their research specialties can be applied to a private company by their long period research experiences in a private company. Students can also have deeper understanding of how their research fields can be related to surrounding research fields. Students can experience various communications and recognize their social responsibility as a researcher or technician.
Grading policy	After completion of the internship, a host company issues an evaluation certificate. The faculty member of CEPD in charge evaluates student's performance based on this evaluation certificate.
Lecture Plan	Shown in the job description
Location	Shown in the job description
Language	Shown in the job description
Textbooks and references	None
Notes for students of other programs	None
Explanatory note on above URL	Brief description of the research internship and how to register for the matching system
Others	Please note that this course cannot be registered by web. This course is designed for students who completed the following steps; 1. Students need to register with the matching system operated by the Coop-J consortium. 2. Students need to apply for a job description offered by a company on the system. 3. Students need to be accepted by a company.

	Students should consult with their supervisor well before applying to this internship. Please be sure to read the related URL before registration and attend a briefing held every month.
