

Syllabus Reference

Course title	Evolutionary Genomics
Term	後期 2nd Half
Credit(s)	1
The main day	The main period
Program/Department	49 Genetics
Lecturers	TBA
成績評価区分 Grading Scale	A, B, C, Dの4段階評価 Four-grade evaluation
レベル Level	Level 3
力量 Competence	専門力 Academic expertise

Instructor
Full name
* KITANO JUN

Outline	After introduction of basic knowledge on various fields of evolutionary and population genetics, such as adaptive evolution, neutral evolution, speciation, and symbiosis evolution, we discuss what kinds of new questions will be possible to answer by employing emerging genomic technologies.
Learning objectives	Study basics of evolutionary genetics and recently developed genomic tools applied to the field. Understand what kinds of research questions you can address employing evolutionary genetic and genomic tools.
Grading policy	To obtain credit one must attend at least three of the classes and submit a report on either one of the classes or the entire course. The report should summarize what you learnt from the lecture and how you would be able to apply the methods or the ways of thinking to your own research within about 1 page of A4-sized paper. The grades will be A, B, C, and D, which are determined by the quality of the report.
Lecture Plan	After introduction of basic knowledge on various fields of evolutionary and population genetics, such as adaptive evolution, neutral evolution, speciation, and symbiosis evolution, we discuss what kinds of new questions will be possible to answer by employing emerging genomic technologies. Evolutionary Biology and Genomics Friday 13:30 - 15:10 November 6 : Introductory population genetics and population genomics of adaptation (Kitano) November 13: Nearly neutral theory of molecular evolution (Akashi) November 20: Population genomics of speciation (Yamasaki) November 27: Phylogenomics and comparative genomics (Kuraku) December 18: Genomics of convergent evolution (Fukushima) December 25: Metagenomics and evolution (Mori) 2027 January 8: Symbiosis evolution (Miyagishima) January 15: Eco-Evo feedback (Yamamichi)
Location	Oral and Online: Seminar Room of the 2nd or 3rd floor of Library in the National Institute of Genetics
Language	English
Textbooks and references	None
Notes for students of other programs	None
